

ENERJ final international conference

Energy Efficiency - A Good Beginning

Thessaloniki (Greece), September 11, 2019

WP2 – D. 2.4.1

Date	September 11, 2019
Place	'Nicolaos Germanos' Congress Center (Pavillon N. 8)
Event organizer	ENERJ Project
Link	https://enerj.interreg-med.eu/news-events/events/detail/actualites/enerj-final-conference-programme

Topics and outcomes

"Energy Efficiency – a Good Beginning" was the title of the final conference indicating the end of ENERJ as the beginning of a new phase for energy efficiency in public buildings. After the presentation of the Interreg MED programme by Matoula Syropoulou from the Greek National Contact Point, Kostas Konstantinou, Project Manager of the Lead Partner Anatoliki S.A took the floor and illustrated the contribution of ENERJ to the challenge of energy efficiency in public buildings, while Vasilis Takavakoglu from Eleana Pana, Region of North Aegean which is a partner, presented the horizontal project MEDNICE and the added value of making the modular projects for energy efficiency in public buildings interact.

A most interesting case study, Fano urban climate regeneration plan, was presented by the architect Tiziana Gallo, Member of the National commission for the economic conversion of Taranto area at the Ministry for Economic Development, Rome, Italy. With a low cost procedure the project has created a database for public administrations and private actors to evaluate urban renewal measures with energy efficiency in buildings at the centre but also taking into account other factors, like urban green and mobility.

The two elements at the centre of ENERJ, Joint Actions and the database with energy data of public buildings were taken up in the next two presentations. Iakovos Sarigiannis, General Director of Anatoliki demonstrated the added value of forming an energy community for the three cities involved and Margherita Carè from the Metropolitan City of Rome Capital showed the functions and potentials of the ENERJ data platform. The latter is complementary to the SISMA tool, presented by Martin Murovec from GOLEA in the sense that the data obtained

from the ENERJ platform can be fed into the SISMA tool to simulate investment costs and payback time as a basis for producing for ESCOs attractive “packages” of buildings for energy retrofitting.

The conference gave an exhaustive overview of the achievements of ENERJ and at the same time shed light on the activities ENERJ has set in motion which will come to bear in the next months and years.

Joint Actions for Energy Efficiency in Buildings

International Final Conference

Energy Efficiency - A Good Beginning

Wednesday, September 11, 2019

'Nicolao Germanos' Congress Center (Pavillon N. 8)

9.30 - 14.30

The final conference of ENERJ will be an occasion to discuss with the principal actors the results of the project and their relevance for the field of actions which is as difficult as it is important: energy efficiency in buildings, looking particularly at public buildings. The Mediterranean area is witnessing a fast growing energy demand, partly due to cooling needs which with climate change will only increase and a rapid urban development. If the Mediterranean wants to stay on track with implementing an inclusive and sustainable energy transition, energy efficiency in buildings, existing ones and new ones, will be a central issue.

Cities and Regions are key players in implementing energy efficiency policies in buildings, starting with their own ones and reaching out to the private sector. Most often the local course of energy transition has been laid down in a local energy plan, many of them in the framework of the Covenant of Mayors as a Sustainable Energy and Climate Action Plan (SEAP/SECAP). The conference will discuss the added value Joint Actions can produce and the role of Joint Actions Coordinators to bring together a group of actors in a specific territory.

The conference will have a pragmatic, application-oriented character. Highly skilled practitioners will present their experiences and discuss them with the audience. The conference is meant for public servants in local and regional administrations, energy experts and interested citizens. There will be simultaneous translation Greek-English.

Project Partnership

Final Conference's Partner

Programme

Chairpersons:

Karl-Ludwig Schibel, Climate Alliance Italy

Kostas Konstantinou, Anatoliki S.A.

09.30 | **Registration of participants**

10.00 | **Welcome**

10.30 | **The Interreg MED Programme**

Matoula Syropoulou, Greek National Contact Point Interreg MED

10.50 | **ENERJ and the challenge of energy efficiency in public buildings**

Kostas Konstantinou, Project Manager, Anatoliki S.A

11.10 | **MEDNICE and the Energy Efficient Building Hub**

Vasilis Takavakoglu, Eleana Pana, Region of North Aegean

11.30 | Coffee break

12.00 | **"Smart Building" program. Fano urban climate regeneration plan"**

Tiziana Gallo, Member of National commission for the economic conversion of Taranto area at MISE, Rome, Italy

12.20 | **The Covenant of Mayors and the Clean Energy for EU Islands initiative**

Antonia Proka, Climate Alliance

12.40 | **Gathering strength together, implementing Energy Communities through joint actions**

Kostas Konstantinou, General Director, Anatoliki S. A

13.00 | **Platforms and other tools, what can they do? The examples of ENERJ and SISMA**

Margherita Carè, Metropolitan City of Rome Capital

Martin Murovec, GOLEA

13.20 | **The Energy Transition in the Mediterranean. State of affairs and perspectives**

Markos Damosiotis, Head of the Division of Development Programs, CRES (Center for Renewable Energy Sources)

13.40 | **Discussion – Concluding Remarks**

14.00 | **Light Lunch**

Local Fiscal Policies for the Promotion of Renewable Energy Sources

Thursday 12 September

AGENDA

- 09:30 Registration of Participants
- 10:00 Welcome
- 10:30 **Promoting Local Fiscal Policies for the Advancement of RES in Rural and Insular Municipalities in Greece: The Achievements and Challenges of the LOCAL4GREEN Project**
Dr. Kostas KONSTANTINOU, ANATOLIKI S.A.
- 10:50 **Public policies and funding tools to promote RES at local level**
Markos DAMASIOU, M.Sc., Head of the Divisions of Development Programs, CRES (Center for Renewable Energy Sources)
- 11:10 **The role of tax incentives, in the development of Solar Thermal Systems in Greece**
Mihalis NALMPANTIS, HELIONAL
- 11:30 Coffee Break
- 12:00 **The importance of incentives for RES installation in the Tourism sector. How could Local Governments contribute?**
Representative of the Chamber of Hotel Owners of Halkidiki
- 12:20 **Incentives to promote electric vehicles by Local Government**
Nikos NTARAS, M.Sc., Department of Environment and Transport, Center of Renewable Energy Sources (CRES)
- 12:40 **Proposals for RES promotion through fiscal policies in Greek municipalities**
Representative of OECOM GROUP
- 13:00 Discussion - Conclusions
- 14:00 Light Lunch

Energy Efficiency of Municipal Building Infrastructure and Local Fiscal Policies for the Promotion of Renewable Energy

WEDNESDAY

11/09, at 9.30am

Joint Actions for Energy Efficiency in Buildings

THURSDAY

12/09, at 9.30am

Local Fiscal Policies for the Promotion of Renewable Energy Sources

INVITATION

The Chairman of the Board of Directors of ANATOLIKI SA
Mr. Sokratis Samaras

invites you

at the **International Conference on**
"Energy Efficiency of Municipal Building Infrastructure and Local Fiscal Policies for the Promotion of Renewable Energy"

on Wednesday and Thursday,
September 11 and 12, 2019

in the context of the implementation of the
«ENERJ - Joint Actions for Energy Efficiency» INTERREG MED
and **«LOCAL4GREEN» INTERREG MED projects**

at the **"N. Germanos" Conference Center, Hall "B"**
within the Thessaloniki International Fair premises

Project co-financed by the European
Regional Development Fund

Joint Actions for Energy Efficiency in Buildings

Wednesday 11 September

AGENDA

Chairperson: **Karl-Ludwig Schibel**, Climate Alliance Italy
Dr. Kostas Konstantinou, Anatoliki S.A.

- 09:30 Registration of Participants
- 10:00 Welcome
- 10:30 **The European Programme INTERREG "MED"**
Ms. Matoula Syropoulou, National Contact Point of the "MED" programme
- 10:50 **ENERJ and the challenge of energy efficiency in public buildings**
Dr. Kostas Konstantinou, Project Manager, Anatoliki S.A.
- 11:10 **MEDNICE and the EEB Hub**
Vasilis Takavakoglou - Mrs Eleana Pana, Region of North Aegean
- 11:30 Coffee break
- 12:00 **Intelligent Buildings and urban regeneration - the Fano project**
Tiziana Gallo, Consultant to the Ministry of Environment, Rome, Italy
- 12:20 **The Covenant of Mayors and the Clean Energy for EU Islands Initiative**
Antonella Proka, Climate Alliance Italy
- 12:40 **Gathering strength together, implementing Energy Communities, through joint actions**
Iakovos Sarigiannis, General Director, Anatoliki S.A.
- 13:00 **Platforms and other tools, what can they do? The examples of ENERJ and SISMA**
Maigherita Carè, Metropolitan City of Rome Capital
Martin Murovec, GOLEA
- 13:20 **The Energy Transition in the Mediterranean. State of Affairs and Perspectives**
Markos DAMASIOU, M.Sc., Head of the Divisions of Development Programs, CRES (Center for Renewable Energy Sources)
- 13:40 Discussion - Concluding Remarks
- 14:00 Light Lunch
